ACKNOWLEDGEMENT

I would like to express my special thanks of gratitude to assistant professor Mr. Rohit Dixit and our dean Dr. Neha Mahendra who gave me the golden opportunity to do this practical on Database Management System.

It helped me in doing a lot of research and I came to know about a lot of things related to Database Management System.

Finally, I would also like to thank my parents and friends who helped me a lot in finalizing this practical file within the limited time frame.

Sachin Kumar Yadav
